

ECOPOTENTIAL Webinar (January and February 2018)

An online webinar was held to present Virtual Laboratory and how to port models onto it. Two sessions were held in different days: the first session on 2018-01-25 and the second session on 2018-02-02.

1. Day 1 was dedicated to the presentation of the VLAB, and to the training on how to port models on the VLAB. After the first session, the attendees were expected to try porting their models following the instructions documentation and with dedicated support.
2. On day 2 the attendees were asked to report feedback, experience and issues encountered during the porting test.

Agendas of the two days are available [here](#) for day 1 and [here](#) for day 2.

Webinar sessions were recorded and are available at the following links.

Day 1
